SUMMARY

Full-stack developer with a strong passion for creating and implementing features that make applications more user-friendly. Currently Studying an Online Data Science Course. Has a Bachelor of IT from CQUniversity and recently completed a coding boot camp at Monash University gaining skills in JavaScript, CSS, Html, Responsive Web Design, jQuery, React, Node.js, SQL. Always looking forward to learning new programming aspects to better enhance skills and collaborating with others to create new web applications or make improvements.

TECHNICAL SKILLS

Languages: Html, CSS, JavaScript, Java, SQL, React, WordPress, R
Technologies: Node.js, API, Express, Git control, MongoDB

PROJECTS

Peak-Condition | Code https://github.com/Keegawho198/React-project3 | Deployed https://peak-condition.herokuapp.com/login

- Creating an application that was capable of storing data inside a database, implementing authentication, connecting front and back end, and designing the front-end.
- First time users use Email login: 'user0@email.com'. For Password login use : '123'
- Html, CSS, Bootstrap, React, MongoDB, Food Database API, JWT Authentication

Don't Eat Application | Code https://github.com/chstrcpprpt/project1 | Deployed https://chstrcpprpt.github.io/project1/?#
- Finding google map API and figuring out how to use it display locations on the map using the latitude and longitude of a given address from another API.
- Html, SASS, JavaScript, jQuery, google maps API, Zomato API

Weather Dashboard | Code https://github.com/Keegawho198/Weather-dashboard | Deployed https://keegawho198.github.io/Weather-dashboard/
- Using open weather API and linking it to a search city that reads a user input.
- Html, CSS, JavaScript, jQuery, open weather API

Saya Art App | Code https://github.com/IdaPutra/SAYA-YO | Currently In Progress
- Creating an Art e-commerce application, Capable of getting Backend from Strapi.io Content management system.
- Html, CSS, MDB React, React, MongoDB, Strapi.io

Batch Worker   **2021– Present**
Employer: Maltra Foods   **Melbourne**
Part-time

Moving ingredients into bags at the correct measurement to have them be processed and blended.

Office Administrator   **2017– 2019**
Employer: Remunerator Salary Packaging   **Melbourne**

Archiving of emails using Laserfiche software, Filing, Scanning, General office duties. Assisted co-workers with general office duties. Was able to add extra tasks to my role as I was able to do tasks at a fast pace.

EDUCATION

Coding Bootcamp Certificate: Monash University, Melbourne
A 24-week intensive program focused on gaining technical programming skills in HTML5, CSS3, JavaScript, jQuery, Bootstrap, Firebase, Node Js, MySQL, MongoDB, Express, Handelbars.js & ReactJS.

Bachelor of Information Technology: Central Queensland University, Melbourne campus
A 3-year course which included 23 subjects which focused on learning some basics to more advanced languages, database technologies and ethics and morals which came to information technology.

High school: Onehunga High School New Zealand (2012 - 2016)
Highest Level of Education: Year 13
